

Course Title:

ISO 14155:2019 - Responsibilities of Principal Investigator

Product ID: N185

Duration: 35 mins

SME: Danielle Giroud

First Released On: 06/06/2019

Course Description:

This course details the principal investigator's qualification requirements and responsibilities throughout all stages of clinical investigations.

Learning Objectives:

Upon successfully completing this course, learners will be able to:

- Recognize the responsibilities and specific requirements of the principal investigator
- Understand that the investigator must have qualified, duly trained team members involved in all aspects of clinical investigations
- Be aware that if the principal investigator delegates tasks to authorized designees, they must be recorded in the investigation personnel log
- Understand all other investigator's responsibilities

Who Should Enroll:

Clinical research associates (monitors), clinical study coordinators, assistant senior clinical research associates, clinical project and data managers, data entry personnel, ethics committee and institutional review board members, regulators, and notified body personnel involved in auditing clinical evaluations are all welcome to participate in this course.

Related Resources: Yes
