

Online Training for Medical Device Professionals

Course Title:

Demarcation of Medical Devices to Other Products

Product ID: 75
Duration: 60 mins
SME: Markus Zobrist

Course Description:

This course features two parts. The first part concentrates on defining various types of medical devices based on standard European definitions. The second part explains how to differentiate medical devices from other medicinal products, and also provides a review of products that share similar components to medical devices, such as cosmetics, biocides, food supplements, and more.
