Online Training for Medical Device Professionals

Course Title:

The Main Concepts for Safe and Performing Devices

Product ID: 163

Duration: 39 mins

SME: Carole Stamp

Course Description:

This course reviews how regulators define safe and performing (or effective) medical devices. It includes an outline of the most essential EU directive requirements, the importance of risk management systems, and what clinical evaluation means.

Watch the Course Trailer:

Learning Objectives:

Upon successfully completing this course, learners will be able to:

- Comprehend how essential requirements, risk analysis, and clinical evaluation interrelate to create an efficient quality system in support of all activities

Who Should Enroll:

Professionals new to the medical device industry, including inventors, managers, CEOs, or business professionals needing to understand the elements of the CE-mark process are all encouraged to participate in this course.

Related Resources: Yes

Prerequisite Knowledge

The following courses are required:

- The Lifecycle of Medical Devices from Idea to Market (ID 159)
- Creating Value in Healthcare (ID 175)
